This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

In the year 1884 I undertook to prepare for publication the records of men who had belonged to Wadham College; and in 1889 I was able to produce the first Part of this work, containing the names of all men who had been attached to the College from its foundation in 1613 to 1719. To this I am now able to add in Part II. the records of Wadham men from 1719 to 1871. I would gladly have carried the work on to the Second University Commission (1881), or even to the present day, but it would have proved too large; yet, perhaps, at some future time, I may be able to continue the publication of the College Registers together with those appendices on the Buildings, the Endowments and Estates, Benefactors, Servants, Library, Plate, and Pictures, which, though contemplated from the beginning of the work, I have been unable to include in the present volume.

I have appended to this Part such additional information about the Members of the College from 1613 to 1719 as I have been able to discover in the last five years. The publication of Foster's *Alumni, Oxonienses* (1500 to 1714) has supplied the matriculations of numerous men who migrated to Wadham from elsewhere: and many facts have been gathered from the works of Jackson (Wadham), Boase (Exeter), Shadwell (Oriel), Fowler (Corpus), and the publications of the Oxford Historical Society, especially Wood's *Life and Times.*

I have tried to acknowledge carefully the sources of my

information: and especially in the case of Mr Foster, wherever I have used such items, as he alone could supply, I have placed them in inverted commas, followed by the letter F.

Besides the gratitude which is due to the Authorities of the College for placing all records at my disposal, I would express my thanks to the officers of the College of Arms, and to the Clergy who had so kindly searched their Registers for me; and further, to the many living Members of the College who have supplied information about themselves and their relatives.

INTRODUCTION.

In continuation of the Introduction to Part I. it is necessary to add that as to

The Buildings,

they remained during this period (as they still remain) almost unaltered from the day of the Foundation. The Buildings now known as 10 and 11 in the Back Quadrangle were adapted for the use of Students in 1828. The arrangements of the College Garden underwent several changes, and finally the extent of the College Ground was largely increased by the generosity of Warden Wills, and the subsequent purchase of the Warden's Garden.

The Statutes

continued in force from the time of the Foundation till the University Commission of 1856-7, though they were on some points interpreted by the Visitor in accordance with modern wants. No members of the Foundation except the Warden and the Chaplains were required to be in orders; a Fellowship was tenable for 18 years from Regency; Scholars were elected from among the members of the College, a theory which prevailed to such an extent that if an election was made from outside, the successful candidate was admitted Commoner, before he was admitted Scholar. The condition of celibacy attached to the Wardenship was abrogated by Act of Parliament in 1806. Among the changes introduced by the Commissioners was one enabling men to hold Fellowships for their life, and under certain conditions after marriage: the emoluments of one Fellowship were attached to the Professorship of Experimental Philosophy, but the Professor was not necessarily a Fellow.

College Offices.

The College officers continued to be elected annually on St Nicholas Day (6th of December): but it was a matter of form, the resident Fellows dividing the work among themselves, either as holding the offices or as deputies for non-resident Fellows.

The Exhibitions.

During this period, in addition to John Goodridge's four Exhibitions for Commoners, and three for Scholars, many Exbibitions were founded. Dr Hody's six Exhibitions for the study of Greek were generally held by Scholars: besides these there were four Hody Exhibitions for the study of Hebrew. There were also Pigott, Maddox, Gerard, Somerscales, and Warner (for Botany) Exhibitions. The Pigott Exhibition was generally divided between the two clerks, who also held two of Goodridge's Exhibitions for Commoners. Warden Wills, in addition to many other benefactions, endowed a Divinity Lectureship and a Reading Prize, and left Exhibitions both for Scholars and Fellows in Law and Medicine. He also left two bequests for Superannuated Fellows.

The Records.

In the introduction to Part I. I divided the History of the College, as far as its records were considered, into Six Periods: of these the first three and part of the fourth were there disposed of, bringing the history down to 1719.

The present volume includes the remainder of the Fourth Period, 1719 to 1739 (Wardens Baker, and Thistlethwaite); the Fifth Period, 1739 to 1806 (Wardens Lisle, Wyndham, Gerard, and Wills); and so much of the Sixth Period, 1806 to 1871, as is covered by the Wardenships of Tournay and Symons.

I have already (in the Introduction to Part I) mentioned that in the scarcity of College Records for the Fourth Period I am thrown back upon the University Matriculation Register, supplemented by the College Caution Books.

The Register of Foundationers (*A*) is blank, except that in

Digitized by Google

1739 Warden Lisle, on resuming the entries, prefixed a list of Scholars elected since 1720.

The Register of Fellow Commoners, Commoners, and Servitors (*B*) is fairly complete from 1719 to 1737.

The Caution Books are complete.

The Convention Book (*M*) begins to be kept again, 6th December 1719, after a gap of thirty years.

For the Fifth Period, while the Register of Foundationers (*A*) is complete, the Register of Commoners (*B*) ceases altogether, and I am obliged to take the University Matriculations as my text, supplemented by the Caution Books. For this period the Convention Book is complete.

For the Sixth Period, while the above mentioned sources of information remain available, there is also a most admirable record of all persons who entered the College, commenced by Warden Tournay and continued by his successor; indeed, when Wardan Tournay began his record (apparently in 1810), he not only recorded all admissions, but also as far as he could discover it, the history of every man whose name was at that time on the College Books.

This Register, then, of Wardens Tournay and Symons forms the backbone of the work from 1806. It is supplemented, firstly, with additional information on University matters which they had not registered, and secondly, with a note as to men's subsequent career, where such information could be obtained, about which the Wardens rarely made an entry.

In conclusion, let me point out that our Founders anticipated what is now considered the wisest arrangement for a College: no Fellow was obliged to take orders—and Fellowships were terminable. This worked in two ways: the succession to Fellowships was rapid, and the management of the College was generally in the hands of men under 40 years of age, with the exception of the Warden. On the other hand, non-residence became common, because the Fellows were anxious to secure a position before their Fellowships expired. During the last century most of the Fellows did take orders—but the College had only five livings in its gift, which did not supply a sufficiently rapid succession. The College supplied but few University Officers and Professors; for its members were generally launched in the world before the age at which University dignities used to be attained—but if its influence

on the University is not so distinct as that of some other Colleges, it can claim that it has twice, in its corporate capacity, imprinted its mark upon English thought, first through the remarkable group of men who, by no fortuitous concourse, gathered in its chambers as the nucleus of the Royal Society, and secondly, by another group of teachers and scholars who went forth from its walls to be the first and most earnest exponents in England of the Philosophy of Comte: a system which, whether accepted or rejected, has profoundly, and in many cases unsuspectedly, modified the direction of English Philosophy. In thus closing the work of ten years I will only add that it has been to me a labour of love, and I am very thankful if by my toil I can show piety towards our Founders, to whose wisdom and liberality all Wadham men, and especially members of the Foundation, are infinitely indebted.

ABBREVIATIONS AND NOTES.

To the Reader.

In a work of this kind it is unnecessary to explain the ordinary contractions of University records, but the following observations must be noted.

The letters W., F., and S. must be read Warden or Wardenship, Fellow or Fellowship, Scholar or Scholarship.

P. F. Probationer Fellow.
F. C. or G. C. Fellow or Gentleman Commoner.
C. Commoner.
M. Matriculated.
s.p. sine prole; *s.p.m.* sine prole mascula.
v.p. vita patris.

Caution Money (C.M.), which varied in amount according to status, was either "restored" to its owner or "taken up for battels." Many men after graduating allowed it to be exhausted in College and University dues, when their names were removed from the College Books, either by their own action or by the stoppage of further payments. Some afterwards "replaced" their names and Caution Money. In the year 1855, it was arranged that on payment of a sum down, any M.A. might "compound for both College and University dues, whereby his name would remain on the Books for life."

The Old Style continued in use in England till 1751; after that the year was reckoned to begin on 1st January instead of 25th of March.

As to authorities, Wood and Hearne are quoted *passim*; County or College histories are referred to by the name of the author; notes borrowed from Foster's *Alumni* are printed in inverted commas with the addition (F.); and O.H.S. refers to the publications of the Oxford Historical Society.

an acute and vigorous understanding,
a steadfast Loyalty,

1806.

On 19 June, 1806, William Tournay was elected Warden: he set to work to establish a Register of all those whose names were on the College Books. He appears to have taken the list as it stood after the Long Vacation of 1810, so that a few names of men who matriculated between October, 1806 and July, 1810, and also left the College before October, 1810, have to be supplied from the College Caution Book and the Matriculation Register; but Dr Tournay's record is from this point so nearly complete that I propose to use it as the basis of this Book henceforward, supplying the few additional names required: and adding to the Warden's record notes both of the University distinctions obtained by men and also of their subsequent careers. These Registers, so carefully kept by Wardens Tournay and Symons, will carry the work on to October, 1871.

Vicar of Hill Farrance, 1831.

About the year 1866, he wrote under the nom de plume of XXX a series of letters criticising the County Expenditure, and the effect wrought, was that considerable retrenchment and reform were carried out. "This Salver with the accompanying Candelabrum, was presented to the Rev. John King Eagles, author of the letters bearing the signature XXX, by the Ratepayers of Somerset, in the Castle Hall, Taunton, on the 11th February, 1868, as a token of their gratitude for his spirited, able, and uncompromising endeavours to effect a reform of the County Expenditure, with a view to its establishment on a basis of Justice and Economy."

Early in 1873, he changed his name by Letters patent from Eagles to Warre.

Humanity Lecturer (ad hoc) 26 March, 1868. Died in College 16 Aug. 1882, when he bequeathed £100 to the College to buy plate. His mother was Amelia, daughter of William Sidenham, Auditor General of Fort St George, sixth in descent from Richard S. of Chilworthy and Clarendon Park, who married Elizabeth Hall. (Pedigree in the College archives.)

"A man of extraordinary ability; his knowledge on all subjects (except Natural Science) was remarkable. His brilliant powers of conversation during the best years of his life showed that there was no point in History, Antiquities, or Literature, even the most uncommon, with which he was not familiar. But his special gift was for Languages, with which his acquaintance, even to obscure dialects, was extraordinarily wide; yet, through lack of patience and concentration, he left no written results of his accumulated stores of learning. It was well said of him that 'he had a narrow escape of being a great man.'"
